**Syndigo**

RE: Web Applications Intern

Dear Hiring Manager,

Upon learning that Syndigo has an opening for a new Web Applications Intern, I am motivated to contact you. For several years I have focused my career path and academic pursuits on learning and developing those all-important skills necessary to be a good software engineer. My motivation to choose software development as my carrier is to give back to society using technology.

I am a 3rd-year student at NIT Jalandhar. My belief is that we need to focus more on teamwork in the software world for all-around development. I possess software development, programming, and management skills. Additionally, my abilities extend to critical thinking and problem-solving with proficiency in teamwork. Working with people from diverse backgrounds has given me a good understanding and awareness of differences in individuals and organizations. These qualities will help support Syndigo's mission and a lot of learning about the industry.

For further details of my qualifications, background, and contributions, please take a moment to review my enclosed resume. I believe that I can successfully be the Software Engineer Intern you're seeking and I welcome the opportunity to speak with you at your earliest convenience.

Sincerely,

Abhishek Kumar
